

Proposed Revisions Sanitary Sewer Systems Waste Discharge Requirements (Permit)

(Title) This presentation is regarding the proposed revisions of the Sanitary Sewer System permit.

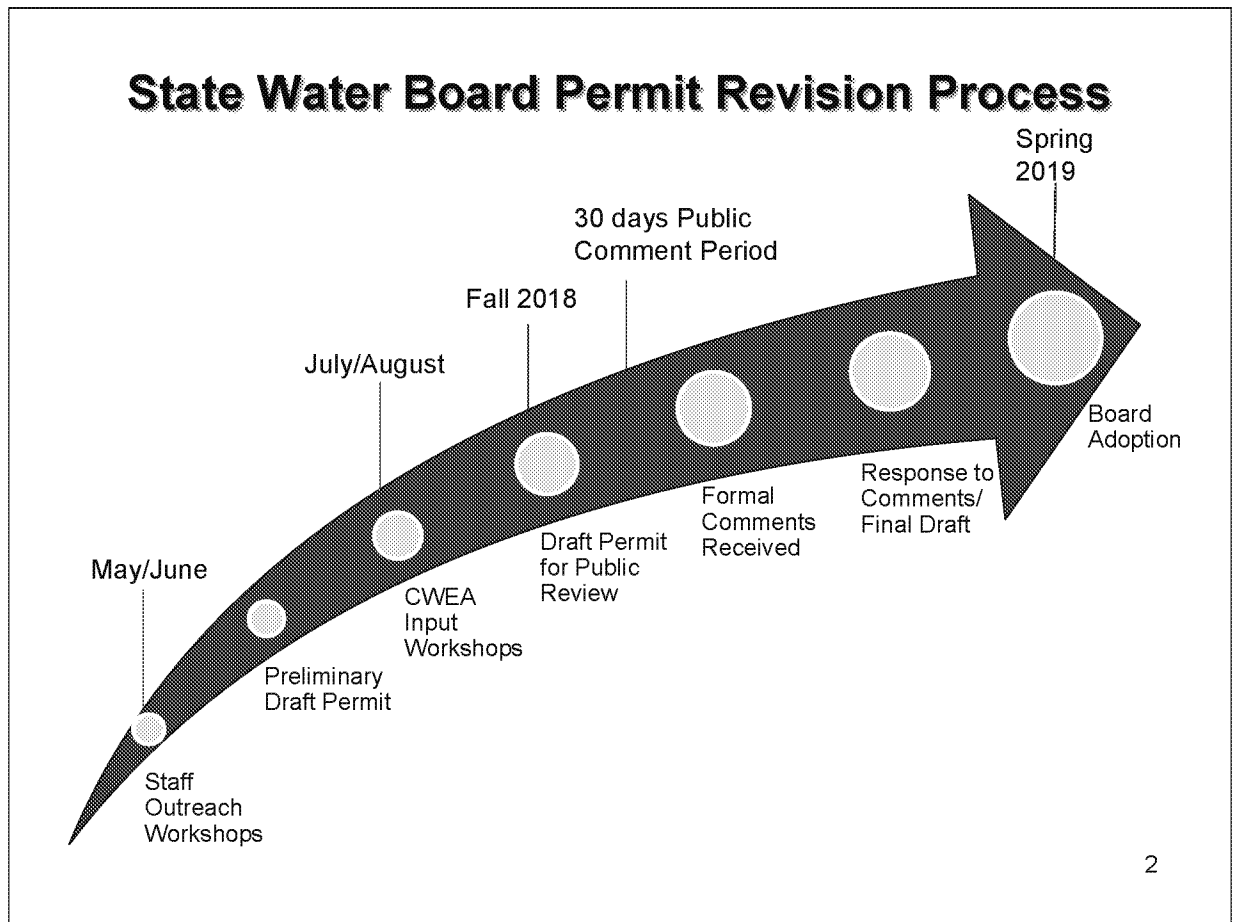

(Right Hand Side) My name is Afroz Farsimadan with the State Water Board, Division of Water Quality. I am the chief of the wastewater permitting unit.

Gil Vazquez is the staff engineer working on this proposed revision.

(Left Hand Side) Here is a small diagram showing where the division of water quality, and my unit, stands under the State Water Board.

The Office of Enforcement is also under the State Water Board, but not under the Division of Water Quality.

Staff of the Nine Regional Water Boards work in coordination with us State Water Board staff.

Here is the State Water Board Permit Revision Process

This arrow is a timeline of the process

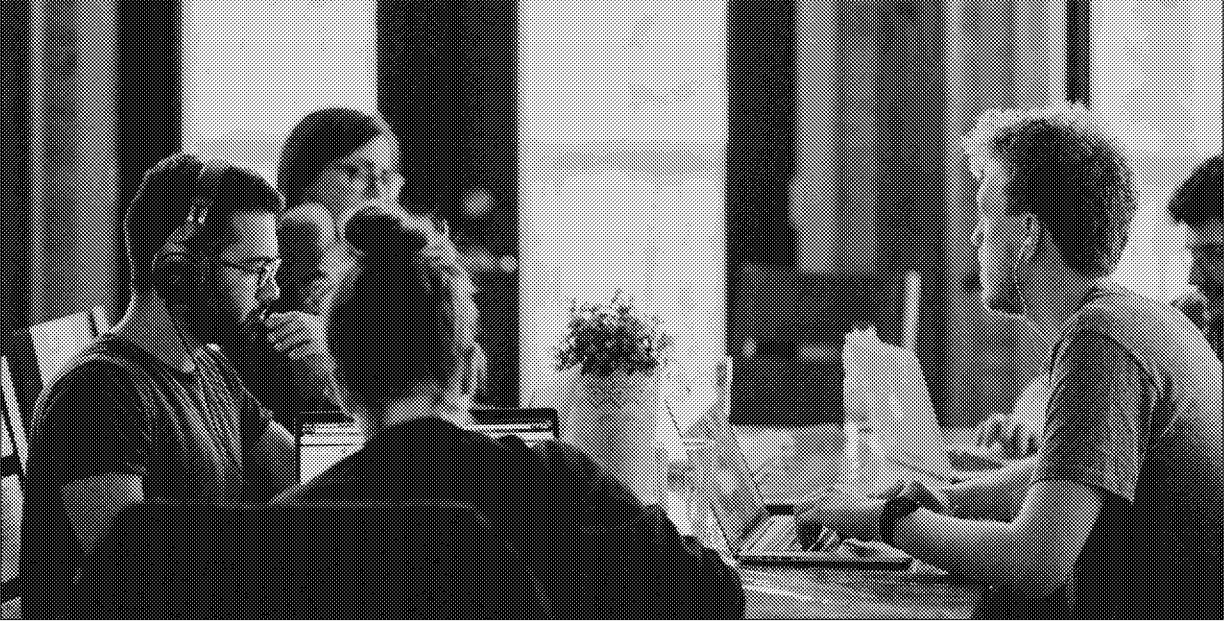

We are at the very bottom of the arrow.

Upcoming are State Water Board staff outreach workshops in May and June

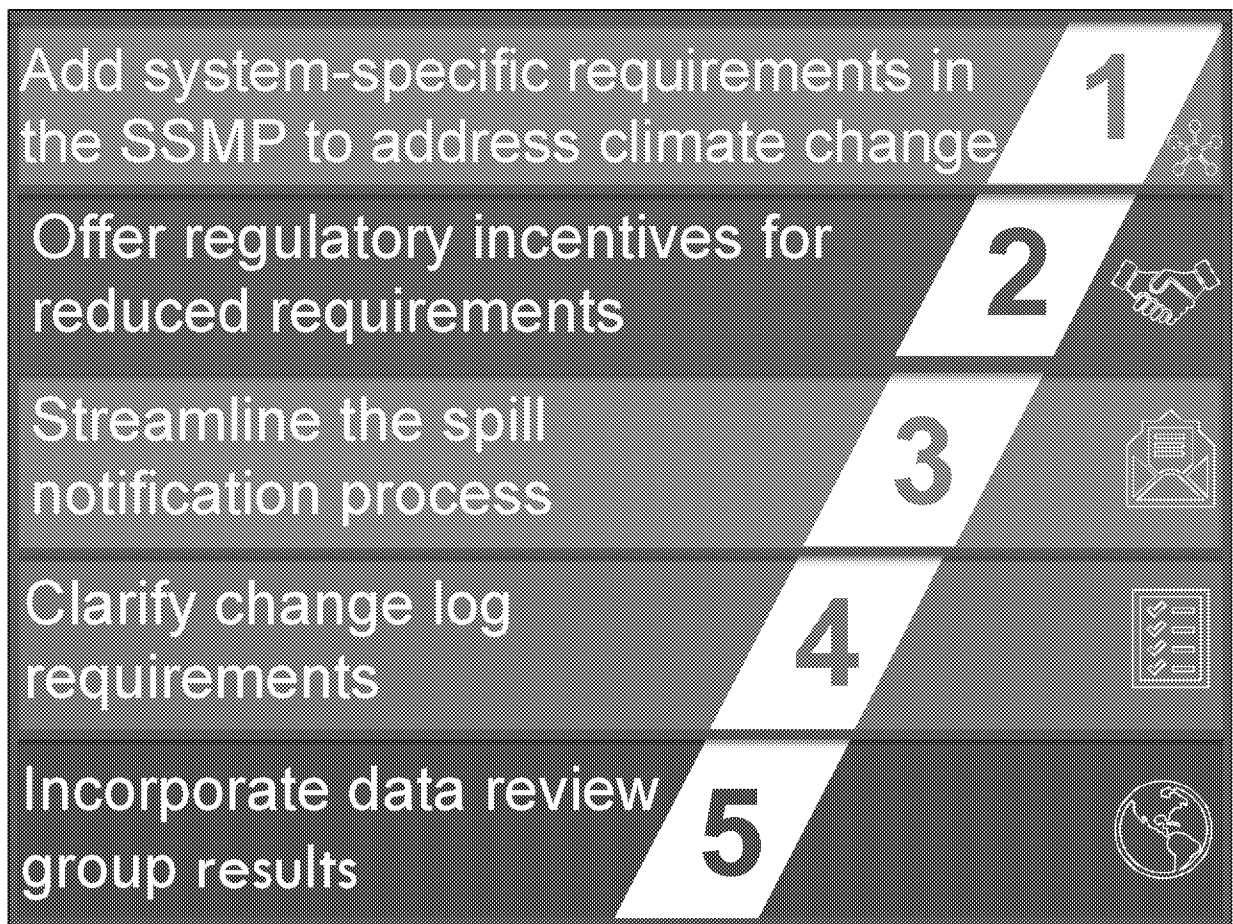

Follow each circle....

We Will have a Board adoption meeting in the Spring of 2019.

Potential Topics for Further Stakeholder Discussion
